## FROG'S LEAP

2020 CABERNET SAUVIGNON  
ESTATE GROWN – RUTHERFORD, CA

Full bottle just 1,278 grams.\*

90% Cabernet Sauvignon, 10% Cabernet Franc, dry-farmed organically on their three estate vineyards. Aged 20 months in new to 5-year-old French oak barrels (no more than 10% new oak). Proudly Rutherford and inspired by the yesteryear greats of there.

Deep crimson. Lots of life on the nose and a refreshing, dry (= not sweet)... Still quite youthful and agreeably, obviously not wearing make-up. An honest wine that's as good a Cabernet Sauvignon as I've had from this address. Tannins are undisguised. No airs and graces. Well done!

## DRY-FARMED AND ORGANICALLY GROWN

**OUR CABERNET STORY** For decades, it has been our goal to produce a Rutherford AVA, estate-grown Cabernet Sauvignon. Inspired by the early Cabernets of Inglenook and Beaulieu Vineyard, we've spent the past 20 years finding, farming, and obtaining highly sought-after land in Rutherford — with particular attention to the Rutherford bench — to perfect our craft. Years of effort with organic viticulture, dry farming and minimal cellar intervention yield a wine that could not be produced outside of the ten square miles that define its appellation. — John & Rory Williams
